### How Petroleum is Formed.

The *Pittsburg Chronicle*, speculating on the formation of petroleum, says: We may set it down as an axiom that nature is not only capable of producing now all articles that she has ever produced, but that she is and will continue to produce them until she substitutes something better. Perhaps our meaning will be better understood by applying it to a single article. Suppose, for instance, we take the one in which we all have a deep interest—petroleum. This is known to be a hydrocarbon, composed of two gases. These gases are primary elements, indestructible and exhaustless in quantity. One of them (hydrogen) is a constituent of water, and, of course, is inexhaustible as the ocean. The other is a constituent of all vegetable forms, and in many of our rocks. One hundred pounds of limestone, when burned, will weigh but sixty pounds. The part driven off by burning, is carbonic acid. Underlying the "lime rock" is a stratum of limestone of unknown thickness, but known to be upwards of one thousand feet in depth. The water falling on the surface and percolating through the porous limestone that underlies the oil rock, becomes charged with salt, potash, saltpetre, and other chemical ingredients, and finally reaches the limestone rock and decomposes it—the carbon in the rock and the hydrogen of the water uniting to form oil, while the oxygen is set free to ascend to the atmosphere or unite with minerals and form oxides. The reverse of this process is seen in burning the oil in a lamp—the oxygen in the atmosphere uniting with the carbon in the oil, forming carbonic acid, and with the hydrogen forming water, thus completing the circle. The question is frequently asked, When will the oil become exhausted? We may answer, When the ocean is and not before.

The N. Y. *Observer* says: The name Petroleum means Rock Oil. This indicates its place in the earth. True, it flows from the earth, sometimes floats on ponds or lakes, comes out in springs, is found in some rocks, and is distilled from bituminous coal. It used to be collected on Seneca Lake, and was called Seneca oil. The writer has some that was taken from that lake more than fifty years ago, and is precisely like that from the oil regions of Virginia, Pennsylvania, and other States. Yet it is not a new thing, for it was known and used on the Eastern Continent before the Christian era. It has excited new interest from its abundance and from its new and extensive uses. Its exportation from our country is prodigious, a real era in the trade.

Petroleum is a real chemical compound, formed of carbon and hydrogen, or a true hydrocarbon. Several compounds of these two elements exist together in it. Its conversion by heat into illuminating gas is well known. This is a gaseous hydrocarbon; petroleum is a liquid hydrocarbon, as is naphtha also; and bitumen is a solid hydrocarbon. Such vast quantities flow from the oil wells that people cannot but inquire, how is it produced? Though chemists and geologists of high character for knowledge believe this oil results from chemical action upon either vegetable or animal matter buried in the earth, or upon both, they have not shown its production, or what is the matter acted on, and how the action is carried on. All agree that it seems to be connected with coal-fields, where were imbedded immense quantities of vegetable substances.

A late paper contains a professed answer, and gives, as it supposes, the complete chemical process in the formation of the oil. Omitting the great mistakes in the chemistry, let us look at the proecss. The paper states that limestone, carbonate of lime, lies below, and sandstone above, the oil rock; that water filters from the surface through the sandstone into the limestone, and that there the hydrogen of the water combines with the carbon in the limestone, to form the oil, while the other elements pass off; and hence the production of oil must be unlimited, as the substances, water and carbon in the rocks, are without a limit. This is a beautiful theory, and seems scientific in language. Yet chemists have never been able to discover or effect the union of carbon and hydrogen from water and limestone, or to detect any action or force which would lead to such a result. The solution has not been given.

At Lyons, France, a process has been adopted for photographing upon silk, linen and other articles, and many persons have their portraits upon their linen instead of having it marked with their names or initials. In the silk shops various articles are exhibited photographed with names and fanciful devices. The articles are not at all injured by washing, and the process is easily and rapidly effected.

In a speech delivered by Gen. Howard, of the Freedmen's Bureau, to the school teachers of the Colored Schools in Washington, on Friday last, he said there were at least seven thousand freedmen in the Washington district, who ought to have employment elsewhere, and he hoped he would be aided by those present in procuring them employment in the North and West.

An officer of the U. S. Government informs the Petersburg *Index*, that the contractors employed to inter the dead bodies of soldiers in that vicinity are in the habit of dividing the bodies into four parts so as to get quadruple pay for their work. The government allows $8 for each body buried, but by the unique system of the Yankee contractors they get $32 each!

A young man, becoming engaged recently, was desirous of presenting his intended with a ring, appropriately inscribed, but being at a loss what to have engraved on it, called upon his father for advice. "Well," said the old man, "put on it 'When this you see, remember me.'" The young lady was much surprised a few days after, at receiving a beautiful ring with this inscription, "When this you see, remend er father."

INFALLIBLE YEAST POWDERS.

Scientific men, who thoroughly understand the subject, concur with great unanimity in saying that nothing exerts such a deleterious influence against health as bad bread. The remedy is at hand in SIMPSON'S INFALLIBLE YEAST POWDERS, the value of which is thus certified:

RALEIGH, Aug. 27, 1866.

I have tested the Yeast Powders you manufacture and can recommend them as vastly superior to any other ever used by me. In addition to the lightness and sweetness of the bread, the powders are economical, as one-third the lard usually required will answer in the making of either loaf bread or biscuit. For pastries and cakes they are excellent.

VIRGINIA A. ORR.

The price of these powders per package is 25 cts. or 75 cts. per pound. To be had at Wm. Simpson's Confectionary Store, Fayetteville Street, Raleigh, N. C.

RALEIGH, Aug. 23, 1866.

This is to certify that I have used Mr. Simpson's Yeast Powders and find them to be superior to any I have ever used. After trying them once no housekeeper will be satisfied without them.

## National Politics---Our Duty.

The recent Northern elections have not changed the inevitable purposes or prospects of the inevitable Radical party. Little Delaware and Maryland have done nobly, largely increasing the Conservative vote. New York city gave a thundering endorsement of her noble Hoffman and an equally significant rebuke to the enemies of the Constitution and the Union, but the rural districts neutralized the large vote of the city, electing Fenton. Elsewhere, the Radicals have it their own way. We faintly hoped for a different result. We ardently desired an emphatic endorsement of President Johnson's policy, and a clear and unmistakable verdict in favor of the maintenance of the Constitution of our fathers; but if we can draw from the results of the late elections any one conclusion, it is that the great North is bound with hooks of steel to the Juggernaut of ultra-abolitionism, and has thrown to the winds the Constitution and the great land-marks of American liberty.

The elections have decided that the next Congress will be more potent for mischief and evil than the present—that in numerical strength Radicalism has gained rather than grown weaker, for the accomplishment of all the evil it has power to effect. Yet we are not alarmed or hopeless of the future.—Three-fifths of the population of the United States,—perhaps, we might say, numerically, four-fifths of the manhood of the Union,—is still adverse to the extreme measures of the Radicals. But one branch of the government is in their possession. The Executive and Judicial departments are still conservative—still desire a restored and peaceable Union under the Constitution. There is, therefore, no room for despair. The Radicals may threaten, and their debased Southern pimps may endeavor to intimidate and alarm, but the great body of the Southern people will still cling to the Ark of the Constitution, and if that is wrecked, they will maintain their honor unsullied, and go down with it. But do the elections establish, beyond a doubt, that the North demands the Howard amendment as a part of the Constitution, leaving, as its advocates still contend, suffrage as a right of the States; or do not the elections plainly demand *universal suffrage* as the only *sine qua non* which it will accept? We contess it is difficult to determine, from the various and conflicting issues put before the people. If, however, the object of the North is to demand indemnity and security for the future, we are not opposed to any thing, just, reasonable and honorable.

If the Howard amendment was the true issue, it is evident it is a failure. Taking it for granted that the ten late revolting States, which have not yet soiled their garments, will reject it by their Legislatures, it is now pretty certain that Maryland, Delaware and Kentucky will reject it. But the evidence is accumulating that the amendment was but an electioneering trick to gain time and strength. In these respects it has succeeded, and we expect to see those who were really sincere in desiring its success, as a means of settlement, sadly disappointed by the more specific and bolder enunciation of the real programme of the Radicals, and the abandonment in form of the amendment. The leaders of the Republican party, which party, by the way, will be hereafter better known as the Radical party, bent upon maintaining their power, can see no certain method of securing it but in universal suffrage. Equality of all classes and colors is to be the battle-cry, with whatever of humiliation and ruin it will entail upon the South, to the end of maintaining their ascendancy, knowing full well that the Northern States can suffer nothing from universal negro suffrage. They are determined to keep the black race out of the North. All the professions they make of offering them a home are mere pretensions.—The colored race desire no home among them, and the North knows this, and it will foster their anxiety to remain in the South.

What is the duty of the South? Plainly to quietly settle down at work, pressing forward with unwonted energy in extracting, from the resources which God has given us, all that enterprise, skill and industry will accomplish.—We are denied all participation actively in the common government, yet we must not be unwatchful of the progress of events. The Southern States are *States*, and it is not in the power of Congress, without the utter destruction of the Constitution and the Government, to unmake them, or remit them to a territorial condition or to the condition of conquered provinces. They are not only States, but they are States in the Union, were never out, and cannot be put out, without the destruction of the government.

It is important, therefore, that the Southern States should do nothing to forfeit their relations to the government, nor should they give their assent to any changes in the Constitution which confer upon Congress any powers or rights not now granted to it by the Constitution. Changes really needed to adjust matters, demanded by justice, right and harmony, may be granted, but the Southern people should never yield a willing consent to any changes which look to the destruction of the government of Washington and the fathers.

Congress can keep our Senators and Representatives out, but we should nevertheless continue to elect them. Congress may pass unjust laws, but we can continue to obey them until repealed. Let the South do her whole duty to the government,—all that can justly and constitutionally be demanded of her, or, if unjustly or unconstitutionally demanded, until right prevails. Truth and right must at length triumph. But let us avoid national politics, as a practical, absorbing matter in which we have present concern. Let us, if God will, mend our fortunes, keep the laws, obey the Constitution, do justice to, and act the part of true friends to, the colored race; promote their industry by fair and just compensation for labor, and encourage them to seek, by an honest and earnest effort, to grow better and wiser and more independent, as the certain road to peace, prosperity and happiness.

## Bennett and the Amendment.

The New York *Herald*, that Ishmaelitish journal, which has no reverence for position, character, influence, or anything else, is busily engaged in assailing the motives of many prominent gentlemen in the South, who have the manhood and patriotism to advise the rejection of the hateful and degrading proposed Constitutional amendment. It says, in its issue of the 7th:

"A number of the old time politicians of the South, anxious to secure for a longer period their fast failing tenure of political power and patronage, have been pushing themselves forward and are advising the Southern people not to accept the constitutional amendment. Wade Hampton, Governors Orr and Perry of South Carolina, Wise of Virginia, Worth of North Carolina, Alexander H. Stephens of Georgia, Governor Humphreys of Mississippi, Throckmorton of Texas and Patton of Alabama, besides many less distinguished and less influential men, have been uttering this foolish advice. These and such men of the old clan as those who so long misruled the South, are excluded from office and placed in the back ground of politics by the provisions of the amendment, and it is not very natural that they should wish to see it adopted, even though it should reconstruct the South, restore the Union and benefit the Southern masses. They have no higher purpose than the reconstruction of their party, not that of the country."

The array of names presented by the *Herald* speaks volumes, especially when contrasted with whatever of counter-array that can be made,—the Bottses, Brownlows, Holdens, Hamiltons and Hunnicuts. It demonstrates conclusively that all the eminent men, who enjoy the confidence of the people of the South, are opposed to the nefarous project of self-debasement which is commended to them by the Northern and Southern Radicals. What such men, and many others who might be named, advise, our people will be very apt to do.

But these gentlemen are "excluded from office by the provisions of the amendment." This fact, according to Bennett, who looks at every question, political, social or moral, through venal glasses, is sufficient to account for their hostility to the Howard amendment. No one but a libeller would accuse any of the distinguished men named above with being actuated by such unworthy motives, if they thought it best for the general interests of their native section and of the Union that the amendment should prevail. But the very fact that such gentlemen are disfranchised by it is, *with our people*, very properly and justly regarded as *one* of the insuperable obstacles in the way of its ever being voluntarily accepted by them. Of the persons specified in the *Herald's* list, Gov. Perry, Gov. Worth and Gov. Throckmorton (and possibly others, of whose antecedents we cannot speak confidently,) are all consistent Union men.—Neither one of them ever believed in the right of secession. All of them opposed the war, until we became involved in it, when, like true patriots, they sympathized with their own States and people. A man may have preached and taught secession for years; he may have sought every occasion and employed every expedient to kindle the flames of sectional acerbity; and yet, under the operation of the amendment, if it should happen that he never took an oath, *as an officer*, to support the Federal Constitution, he is *not* "excluded," while such men as Gov. Perry, Gov. Worth and Gov. Graham, whose political history prior to the war is that of zealous devotion to the Union and the Constitution, are declared unfit to hold the smallest office within the gift of their admiring fellow citizens. We cite this case simply by way of illustration. We should despise ourself if we were capable of desiring to abridge any man's political privileges for his course prior to or during our common war,—for common it was, at one time, although many (some of them most active in bringing it on) forsook and deserted their friends and brethren. We would not even consent to the disfranchisement of Mr. Holden, although he did more to educate the people of North Carolina up to the "sticking point" of secession, than any other man in the State.

But, again, quoth Bennett, "these men have no higher ambition than the reconstruction of their party." *What* party, pray? We have in the catalogue of names presented by the *Herald* prominent representatives not only of the two political parties proper, that existed before the war, but of almost every shade of opinion upon the subject of State rights and relations. We are sure that Govs. Perry and Orr were never before in political accord, nor Govs. Worth and Wise. *What* party, then! Bennett is simply making a blockhead of himself.

It is noticeable that all those individuals and presses, that denounce the Southern people for their manliness, self-respect, and *sanity*, in expressing an unwillingness to lick the very dust of subserviency and abjectly prostrate themselves beneath the heel that is uplifted to crush them, proceed upon the unwarrantable assumption that the ratification of the Constitutional amendment, *ipso facto*, reconstructs the ratifying States. Nothing is more false. The indications, evidences and assurances are all the other way. Nothing can be more certain than that such a concession, so far from appeasing the cormorant appetite of Radical malignity, will only whet it the more. The tiger, when once he has the taste of blood upon his tongue, seeks to devour his victim,—if he can. But there are an hundred reasons why he does not always succeed.

THE OFFICIAL Conservative majority in the city of New York is 46,654. Every ward in the city gave a majority for Hoffman. Messrs. Fox, Stewart, Brooks, Wood, Morrissey and Chanler,—all Conservatives,—are the members elect to Congress. The great Commercial Centre and Emporium of the Union has thus spoken out grandly for Conservatism and Peace.

THE SPEAKERSHIP.—The Statesville *American*, speaking of our friends, Col. A. C. Cowles and J. Henry Hill, Esq., says that either of those gentlemen would make a good Speaker. We have no doubt of it. The *American* also says: "We think the West entitled to the Speakership."

We have no choice, personally or politically, among true Conservatives, as we acknowledge every man to be who sustains, in principle, President Johnson and Gov. Worth, and opposes the Howard amendment. But our friend Drake unwittingly lays himself liable to be charged by our Eastern friends with partiality. He forgets that the Speakers of both Houses in the last Legislature were regarded as Western men.—The Conservatives, we hope, will allow no sectional or other cause to divide them. Compromise, for the Union and for the sake of harmony, should be the rule of action, with every Conservative man in the South. And in order to this, consultation and previous understanding are necessary. Whatever choice the Conservatives thus make in that spirit, in all matters, will meet our hearty support and approval.

MESSRS. MCCULLOCH, Archer, Phelps and Stone, Conservatives, and Frank Thomas, Radical, are the members of Congress elect from Maryland. This is a gain of two Congressmen. The State Senate will consist of 15 Conservatives and 9 Radicals, and the House of Delegates of 59 Conservatives and 21 Radicals,—making a majority on joint ballot of 44. This assures a Conservative Senator in place of Creswell.

Delaware gives an increased Conservative majority.

These two States may now be relied on to unite with the eleven Southern States, and with Kentucky, in rejecting the Constitutional amendment. This makes fourteen States certain in the negative. Ten are sufficient to defeat the proposition.

## The Baltimore Election.

COMMENTS OF THE PRESS.

The Baltimore *Sun* in speaking of the result says:

"All the machinery and power for conducting the election remained in the hands of the long dominant minority, and it was known that all efforts for an amicable arrangement by which a portion of the judges of election would be given to the conservative party had failed, and with the opinion of Attorney General Randall, claiming power to go behind the registry to test the right of registered men to vote, it seemed reasonably sure that many such would either not be allowed to vote at all or have their ballots thrown into the seperate box for rejected voters. Yet a large portion of the Conservative voters determined still to maintain the contest in the best way they could. They devoted themselves quietly to the labor, and the result is that out of about 24,000 registered voters in the city, a total vote of 16,006 was polled for State Comptroller, of which the Conservatives cast 8,513 and the Radicals 7,493, showing a majority of 1,020 for the Conservatives. The voting is thus apparently 8,000 short of the whole registration; but it is to be remembered that all ballots which went into the rejected boxes at the different precincts are to be deducted from this. As they are not counted in the present return, their number cannot be known, but they probably reach two thousand.

Doubtless near about all of the remaining votes which could have been brought out under other and more favorable circumstances would have gone to swell the Conservative majority. The vote on the other candidates—for Congress and Legislature—is near about the same as that for comptroller, so that the whole city ticket, including two members of Congress, three State Senators and eighteen members of the House of Delegates, is elected.

This result in the city, of course, secures the Conservatives a majority in both branches of the Legislature, and a majority on joint ballot, and the consequent election of a Conservative United States Senator to succeed Mr. Creswell.

The city gives a majority of 4,486 in favor of the State Constitutional amendment striking out the 6th section of the 8th article, which provided for a tax of five cents on the one hundred dollars of taxable property of the State for the creation of a school fund of $6,000,000.

The *Gazette* of the same date says:

The Radical faction, backed by an organized and armed force and a partisan court, having managed to retain itself in power, despite the removal of the Police Commissioners by Mr. Swann, undertook to hold an election yesterday. This election was conducted very much after the approved and accustomed fashion of these latter days. Every effort that could be devised to secure a majority for the Radical party was unhesitatingly and unscrupulously resorted to, but notwithstanding only a minority of the citizens of Baltimore went to the polls, the Conservatives carried every one of the three Legislative districts into which the city is divided. Had all our citizens who are fairly entitled to exercise the elective franchise been permitted to vote, the Conservative ticket would have been elected by about thirty thousand majority. Had all the registered voters been allowed to deposit their ballots the majority for the Conservatives would have been at least fifteen thousand. A few years ago there were thirty-five thousand voters in Baltimore, and there are now about twenty-five thousand who are registered. The character and manner of the election we need not now comment on. The fact that the Radical ticket was beaten yesterday by what, under the circumstances, must be considered a very large majority, is a very gratifying one, and we congratulate the community upon this result.

CONGRATULATORY VISIT TO THE GOVERNOR.

A large delegation of the citizens of Baltimore paid a visit to Governor Swann at his residence, Tuesday evening, when A. Leo Knott, Esq., made the address of congratulation, to which the Governor responded with much feeling and eloquence.

He said, during his reply, that, as the registration had been passed upon by the Radicals of the city, they must concede their defeat is by loyal men of their own selection. After an interchange of much good feeling, the delegation retired at about eleven o'clock, highly delighted with the interview.

PERSONAL.—General Wise was better on yesterday, and strong hopes are entertained of his recovery. We hope that he may soon be restored to robust health, for we know of few men whom Virginia could so ill afford to lose. —*Rich. Enquirer*, 8th.

The Macon (Ga.) *Telegraph* records the departure of some two hundred and fifty emigrants for Liberia, from that city, on Wednesday last, who propose settling in the town of Greenville, in the colored Republic.

## Message of Governor Jenkins, of Georgia.

The message of Governor Jenkins, of Georgia, has been sent in to the Legislature of that State. The Governor analyses the Constitutional Amendment, which he declares equally novel and unjust, unconstitutional, null and void, and adds:

"It is said, however, that unless this concession be made, the now excluded States will be kept out of the halls of Congress indefinitely. Were the amendment presented with such a menace distinctly expressed, a higher motive, if possible, than any hitherto suggested would prompt its rejection.

At the termination of hostilities, it was right and proper that the previously resisting States should, in the most unequivocal and formal manner, abandon such resistance—should rescind all they had done in antagonism to, and do whatever was necessary and proper to place themselves in constitutional relation with, that Government. All this, we believe, Georgia has done. Beyond this, in acting upon any proposed change in the fundamental law, even in this critical juncture, my advice is, that her legislators act with the same intelligent judgment and the same unflinching firmness that they would have exercised in the past, or would exercise in the future, when in full connection and unambiguous position. Any other rule of action may involve sacrifices of interest and of principle which magnanimity would not exact and self-respect could not make."

He speaks of the quiet and order of the State, and says:

The Administration, I think, have become thoroughly convinced that the sword and the bayonet are not necessary to the enforcement of law and order. We probably have not now a larger military force within our borders than have often been stationed here in times of perfect peace. Our people, with rare exceptions, such as occur everywhere, have been quiet, orderly, and devoted to industrial pursuits. The officers of the army and agents of the Freedmen's Bureau, stationed among us, have, with few exceptions, manifested a growing confidence and a disposition to relax their authority and leave the administration of the law to the civil courts.

In regard to education the Governor advocates increased endowment of the University of Georgia, and connecting with it the agricultural schools, sustained by the public lands appropriated for that purpose by the United States. A common school system is strongly urged, though no provision for it is suggested.

The failure of agricultural pursuits the Governor attributes in part to the unsteady labor of the freedmen, but directly to bad weather. Of the freedmen he says:

Nor should the people of the South yield readily to discouragement in regard to the labor of the negro in his new status. All reflecting minds cannot fail to perceive that the first effect of sudden manumission must be unfavorable to his well-doing and to his well-being. Unaccustomed to caring for himself, he is prone to believe that the freedom with which he has been invested involves freedom from labor, which was, in his eyes, the distinctive trait in the condition of slavery. It is not to be expected that he would at once reason correctly as to his surroundings and prospects, or adopt promptly the reasoning of the late proprietary race. Experience alone can teach him wisdom, and what her teaching will be is not a subject of speculation; we all know what that will be. In addition to all this, there is abundant evidence that he has indulged most extravagant and unfounded expectations of benefits to be conferred upon him by the Federal Government. He has expected from that source a free grant of land in his own right, and has been indisposed to cultivate the land of others. If driven to it by present necessity, he has regarded it as a temporary expedient, and went to work predisposed to shirk it. Time will dissipate these delusions. It would be both just and kind to wait for and to assist his awakening from them. Many who have hurried into courses of vice and crime will prove irreclaimable. These must be committed to a just and impartial administration of the law, as is practiced with the vicious of our own race. But the great mass of these people, under good influences, may be made useful to themselves and to the country.

Governor Jenkins believes "the planting interest in Georgia can never again be what it has been. Few if any will be able to prosecute on as large a scale as some have done in the past. But agriculture must continue to be the chief industrial pursuit of the State." He recommends, however, that the other abundant and neglected resources of the State should be developed.

The message closes with a suggestion that the chain gangs should be employed in the counties where they are convicted; statements that artificial limbs will be supplied to Confederate soldiers, and that corn was distributed to the extent of 185,000 bushels; and with the advice that the people of Georgia eschew political excitement and employ their energies in rebuilding the prosperity of the State.

Wendell Phillips made a speech on Tuesday at Music Hall, Boston, on the subject of "The Swindling Congress." He abused Grant, Sherman and nearly every public man for the present state of affairs in the country, and warmly congratulated the Bostonians on having returned a negro candidate to the Legislature.

Negro suffrage has already been practically established in Ohio. In all those localities where the Radicals had control of the ballot-boxes, the votes of the negroes were received at the recent election, the Radicals claiming that the Civil Rights Bill, passed by the last Congress, gave the colored people the right to vote.

The house has been thoroughly renovated and put in tip-top order, and Mr. R. promises to spare neither labor or expense in giving satisfaction to his patrons.

ROBBERY.—The store of Mr. F. J. Hartsfield, near Rolesville, was broken into on the night of the 6th. inst., and thirteen watches and other articles stolen. Entrance was effected through a window. Mr. H. has no clue whatever as to the perpetrators.

DON'T FORGET the Concert to-night at the Institution for the Deaf and Dumb, and the Blind. A delightful programme, varied by exercises by the pupils, has been arranged. The public generally are invited to attend.

HONOR TO THE GALLANT DEAD.—The remains of Major James J. Iredell, who fell, on the 10th of May, 1864, at Spottsylvania, and of his brother Capt. Campbell T. Iredell, who was slain at Gettysburg, will reach here this afternoon on the Raleigh and Gaston train.

It has been suggested by some of the former comrades of these gallant young men, that all ex-Confederate soldiers, at present in the city, be at the Depot this evening, at 6 o'clock, for the purpose of receiving the remains and escorting them to their place of deposit.

We shall announce to-morrow the time and place at which the joint funeral will take place.

At Newbern, cotton is quoted at 32 a 32½ on the 7th. Turpentine, dip, ranges from $3.90 a $7, according to quality.

After that time, he will visit Raleigh monthly, of which due notice will be given.—The Dr. comes highly recommended by the press of the different cities he has visited. Those who require medical or surgical aid for defective sight or hearing should avail themselves of the opportunity now offered for obtaining relief, by consulting Dr. Gardner.

The Empress of Mexico will take nothing but chesnuts and cold water. A very filling diet.

A New Orleans physician is trying to prove that mosquitoes are a blessing, not a curse. He says their bite is healthy.

Several persons have been killed by bears in Allegan county, Michigan, where they are unpleasantly numerous and savage.

The President has issued an order for the reinstatement of Gen. Thomas W. Sweeney, late commander of the Fenians, to his former position in the regular army.

ECONOMIZING ROOM.—A woman who lived in a small snug cottage in a village was unfortunate enough to lose her husband, and set about preparing for the funeral obsequies. A neighboring Mrs. Grundy, with her cloak and umbrella, called to see things, to condole and to speculate. On coming into the house she looked around, raised her spectacles and her hands, and said:

"Why, Lor me, how nicely you are fixed up for the funeral; well, I do declare. Lor, Suz! dear me! why, do tell. You borrowed Mrs. Webber's cheers, ain't you? and Mrs. Stone's vases on the mantle piece—they look right smart. I declare; and there's a clock, too—why, where on earth did you get that, I want to know?"

"Oh no, my dear, (with a solemn groan,) that's not a clock—it's my poor, dear, departed husband. I stood it up in the corner to make more room."

## STATE NEWS.

——The *Journal* publishes a statement of the principal articles exported from Wilmington during the month of October. We notice, among others, the following items: Spts. Turpentine, bbls., 7,027; Rosin, bbls., 32,408; Cotton, bales, 2,684; Lumber, feet, 3,143,395; Shingles 225,660.

——A. B. F. Gaither, Esq., for many years a member of the House of Commons from Iredell, died in that county, on Tuesday last, after a protracted illness.

——Corn sold at public sale, in Caswell county, a few days ago, at $4.40 per barrel, on credit.

——There was a jail delivery in Goldsboro' on yesterday morning. Two white men, one charged with murder and the other with highway robbery, made their escape. They had not been re-taken up to the last accounts.

——North Carolina cotton sold in Petersburg, on Wednesday,—fifty-eight bales,—at an *average* of 37 cents. Martin & Tamahill were the consignees.

——The ladies of Newbern have organized a "Memorial Association," for the purpose of disinterring and re-burying the Confederate dead, and erecting a monument to their memory.

——The *Journal of Commerce* says that the traveller who leaves Newbern by the mail train in the morning can get to New York, next morning, to a late breakfast. Three hours only are delayed in the trip,—the Atlantic road placing its passengers in Goldsboro' at 12 o'clock, M., and the Wilson train leaving at 3, P. M. The route is thus described:

"Arriving at Portsmouth, the traveller takes steamer for Annemessix, on the Eastern shore of Maryland. This terminus is the extreme Southern portion of the State, and on the 38th parallel of latitude. Thence the passage to Philadelphia is direct.

If close connection was made at Goldsboro', twenty-four hours only would be expended in the entire journey from Newbern to the city of New York."

—— The proprietors of the "American Eagle," at Louisburg, have removed their establishment to Henderson, Granville Co., N. C., and will, in a few days, issue a paper weekly and semi-weekly, with the title of "The Index," instead of the "Eagle." We heartily wish them success.

The exchanges of the "Eagle" are requested to notice the above, and change their papers to "The Index."

——The N. C. Conference of the M. E. Church, South, convened on Wednesday last, at Fayetteville, Bishop Pierce presiding. We had a promise of a report of the daily proceedings of the conference for the *Sentinel*, but, from some cause, we have received no information of its doings from any source. The business of the Conference will no doubt be marked by great harmony and good dispatch. The only matter beyond the ordinary routine of business which will engage its attention, we judge, will be the propositions of the General Conference to change the the name of the Church to that of "Episcopal Methodist," and the constitution of the Church so as to admit "lay delegates" in the annual and General Conferences. Both of those changes will do doubt be adopted by the Conference.

—— The Statesville *American* says that the corn crop in that region is better than anticipated. A good deal is thrown upon the market it says, by persons who are selling out to remove West. It is selling at 65 to 75 cts. per bushel in Iredell.

The almshouse in Falmouth, Maine, was destroyed by fire Friday morning. Three of the inmates were burned to death.

WE ARE AUTHORIZED TO ANnounce Maj. JOSEPH A. ENGELHARD, of New Hanover County, as a candidate for re-election to the Principal Clerkship of the Senate of the ensuing General Assembly.

**Special Notices.**

**A New and Grand Epoch in Medicine!**

DR. MAGGIEL is the founder of a new Medical System! The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent sores with a box or so of his wonderful and all healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so-called) remedies of others, and upon which people have so long blindly depended. Maggil's Pills are not of the class that are swallowed by the dozen, and of which every box full taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. Ulcerous and eruptive diseases are literally extinguished by the disinfectant power of Maggiel's Salve. In fact, it is announced that **Maggiel's Bilious, Dyspeptic and Diarrhœa Pills** cure where all others fail. While for Burns, Scalds, Chilblains, Cuts and all abrasions of the skin, **Maggiel's Salve** is infallible. Sold by J. MAGGIEL, 11 Pine St., New York, and all Druggists, at 25 cts. per box.

For reference, Testimonials, &c., send for a CIRCULAR.

*OPINIONS OF THE PRESS.*

The Louisville *Journal* says: "The testimonials which Dr. Gardner presents to the public could never have been obtained, except by the display of great skill and learning in his profession. One thing especially commendable in the Doctor's practice is, that he will not attempt an incurable disease for the sake of a fee, but frankly tells the patient whether he can be cured or not. We cheerfully recommend Dr. Gardner to the attention of all our friends who may be suffering from diseases of the eye or ear.

The Richmond *Times* says: We have no hesitation in saying that Dr. Gardner is the most scientific and successful eye and ear Surgeon in this country.

"Dr. Gardner's treatment of the eye and ear is wonderful."—*Richmond Enquirer.*

"We feel justified in recommending Doctor Gardner to those suffering from diseases of the eye and ear."—*Richmond Whig.*

"We can safely and cordially recommend Dr. Gardner, who will fulfill all he undertakes to perform."—*Baltimore Clipper.*

The New Orleans *True Delta* says: "We can safely recommend Dr. Gardner as a successful operator, on the eye and ear. He will not undertake to treat a case unless a cure can be effected.

The Wheeling *Register* says: "Dr. Gardner is one of the most successful Oculists and Aurists in the country. We advise those suffering from the diseases of the eye and ear to consult him.

**SOMETHING NEW**
**UNDER THE SUN.**
**A New Era In Medicine!**

☞ Let the Suffering and Diseased read the following.

☞ Let all who have been given up by Doctors, and spoken of as incurable, read the following.

☞ Let all who can believe facts and can have faith in evidence, read the following:

*Know all men by these presents*, That on this, the Twentieth day of June, in the year of our Lord, One Thousand Eight Hundred and Sixty-Six, personally came Joseph Haydock to me, known as such, and being duly sworn, deposed as follows: That he is the sole general agent for the United States, and dependencies thereof, for preparations or medicines known as MAGGIEL'S PILLS and SALVE, and that the following certificates are verbatim copies to the best of his knowledge and belief.

JAMES SMEITER,
L. S. Notary Public,
Wall Street, New York.

June 1, 1866.

DR. MAGGIEL:—I take my pen to write you of my great relief and that the awful pain in my side has left me at last—thanks to your medicine. Oh, doctor, how thankful I am that I can get some sleep. I can never write it enough. I thank you again and again, and am sure that you are really the friend of all sufferers. I could not help writing to you, and hope you will not take it amiss.
JAMES MYERS,
118 Avenue D.

This is to certify that I was discharged from the army with Chronic Diarrhœa, and have been cured by Dr. Maggiel's Pills.
WILSON HARVEY,
New York, April 7, 1865. 27 Pitt Street.

The following is an interesting case of a man employed in an Iron Foundry, who, in pouring melted iron into a flask that was damp and wet, caused an explosion. The melted iron was thrown around and on him in a perfect shower, and he was burnt dreadfully. The following certificate was given to me by him about eight weeks after the accident.
New York, Jan. 11, 1866.

My name is Jacob Hardy; I am an Iron Founder; I was badly burnt by hot iron in November last; my burns healed, but I had a running sore on my leg that would not heal; I tried Maggiel's Salve, and it cured me in a few weeks. This is all true, and any body can now see me at Jackson's Iron Works, 2nd Avenue.
J. HARDY,
119 Georick Street.

**Extract from Various Letters:**

"I had no appetite; Maggiel's Pills gave me a hearty one."

"Your Pills are marvelous."

"I send for another box, and keep them in the house."

"Dr. Maggiel has cured my headache that was chronic."

"I gave half of one of your pills to my babe for cholera morbus. The dear little thing got well in a day."

"My nausea of a morning is now cured."

"Your box of Maggiel's Salve cured me of noises in the head. I rubbed some of your Salve behind my ears and the noise left."

"Send me two boxes; I want one for a poor family."

"I enclose a dollar; your price is twenty-five cents, but the medicine to me is worth a dollar."

"Send me five boxes of your pills."

"Let me have three boxes of your Salve by return mail."

**I have over 200 such Testimonials**

As this, but want of space compels me to conclude

**EXECUTOR'S SALE OF**

DESIRABLE DWELLING, NICE TOWN

**LOTS, AND A TRACT OF LAND**

**Near Warrenton, N. C.**

As executor of Dr. Hugh J. Davis, to effect a division among his legatees, I shall sell to the highest bidder, on the 15th day of November, 1866, at his late residence, in the town of Warrenton, N. C., the DWELLING HOUSE and LOT. Also a Lot in front of Dwelling, and a Lot adjoining the Court-House square; and a tract of Land about two miles distant from Warrenton.

The Dwelling is in cottage style, containing ten rooms, and has two basements. Near the centre of the town, surrounded by magnificent oaks, it is in one of the handsomest locations in Warrenton, on a lot of about four and a half acres, having an ample yard and garden well inclosed, with Stables, Kitchen, Smoke House, Dairy, Carriage House, Corn Crib, Servants' House, two good Offices in the yard, a well of excellent water, and is bounded by four streets. This square is sufficiently large, and so arranged as to be divided into two beautiful Building Lots, fronting towards the main part of the town. The Lot in front of the Dwelling is enclosed, contains over an acre, without any building, and is bounded by three streets.

The lot in rear of the Court-House fronts on the street about one hundred and ninety-two (192) feet, and contains about three-fourths of an acre. This lot has a Store, with several rooms at the north corner, a residence in the centre, with several rooms, and an office with two rooms at the south end.

The tract of Land contains two hundred and eleven acres, in original growth partly, but mostly in second growth pine, and is situated on both sides of the main road to Clark's Bridge. Being so near Warrenton by a good road, this tract is valuable for its fire wood, having been reserved for this purpose, but would make a nice farm.

Possession of Dwelling and Lots given on first of January, 1867, and the tract of Land given up at sale.

TERMS—On the Dwelling, five hundred dollars cash, and on that and the rest of the property a credit of twelve months, from day of possession. Bonds, with satisfactory security, required and title withheld until payment. Inquiries answered

By this practical illustration of the advantages of Life Insurance, it is commended to the confidence and support of every one desirous of providing for surviving loved ones.

As an investment merely, a Life Insurance Policy is as safe an investment of funds as can be made.—The principal, generally, is not only many times in excess of the amount paid, but in a sound company it has no rival for security, and no species of Government bonds are a more desirable investment.
